

Follow the steps below to set up your app and device.

1. If you haven't already, download the Quotemehappy Connect app using the links below. Check your App Activation email for your activation code.

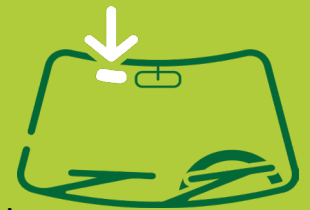

2. Once logged in, the app will guide you through the setup process to connect it to the device, or watch our [video guide](#) for more help.

3. Only remove the tab from the battery when you are ready to connect the device to your app.

4. Once the tab is removed, give the device a few taps with your fingers to wake it up. You should see a green light appear on the device.

5. Once your app is connected with your device, clean the area of your windscreen where the device will go. We recommend either side of the rear-view mirror.

6. Peel off the sticky backing from the flat side of the device. Attach the flat, sticky side, to the top of the windscreen.
